Great Stone is a new international high-tech base for doing business located 25 km from Minsk. Modern industrial architecture, available infrastructure and ecological solutions are the distinctive features of the object. Great Stone provides companies with a unique platform that grants the access to ready manufacturing, engineering and transport, custom, social and administrative infrastructure, significant tax preferences, as well as a special business service system. Everything is made to rapid and successful development

The tour will take you through the modern industrial city of Zhodino, where you will see with your own eyes how the giants of Belarusian and world engineering – BelAZ are born. They work in dozens of countries around the world. The plant's products have won more than one prestigious international award and have become a multiple record holder of the Guinness Book of Records. Today BELAZ is not only a brand of mining equipment, but also a brand symbol of independent Belarus

It is the most 'delicious' tour, a tour to Kommunarika
Chocolate factory in Minsk

The National Library is a visiting card of Belarus. Today, it is not only the richest collection of books, but also a great multifunctional center where high technologies, ultra-modern design and unusual architecture are combined.

The excursion includes also a visit to the sightseeing area of the National Library
